Report of Principal and School Improvement Council

The mission of Waccamaw Intermediate School is to provide a nurturing and safe environment full of diverse learning experiences that enable all students to become caring and productive lifelong learners. It is this approach that makes Waccamaw Intermediate such an inviting, warm, safe, and child centered school. We are a school with high expectations for every child. Teachers engage students through a self-contained classroom approach. This approach provides teachers the flexibility to teach units of study across all content areas with emphasis on reading, math, science, and technology. While our teachers follow the state's curriculum for all content areas, differentiated instruction is provided through balanced literacy and Everyday Mathematics. Science and technology are taught using a hands-on approach as students are provided opportunities to conduct lab experiments in our state of the arts science lab. Daily instruction is infused with current technology such as mobile IPAD labs, mobile mini-laptop labs, Promethean software, Active Response devices to monitor student progress and many other instructional technology resources. These best practices have enhanced instruction as evidenced by our assessments and awards our students have earned this year. In addition to academic success, our students are fortunate enough to engage in exceptional extra-curricular activities such as art, band, music, and P.E. A team approach makes the difference. Also, parent support at Waccamaw Intermediate is outstanding. As evidence of their support, our parents and community members provided an overwhelming amount of support through their time, talents, and gifts. We, the staff, parents, and community at Waccamaw Intermediate School believe that we must all work together for the success of our students.
